

ADJUSTABLE DOWNLIGHT

Drawing CODE: DL

Product CODE: ISH-C2045 (R4A0146)

BRAND:ARCHLUX

Product description:

The Deep Downlight (R4A0146) is a premium adjustable recessed GU10 ceiling downlight frame designed for modern architectural lighting in residential, commercial, retail, and hospitality interiors. Featuring a deep anti-glare design, it provides enhanced visual comfort while delivering precise directional illumination for accent and task lighting applications.

Manufactured from high-quality aluminum alloy, the fixture offers excellent heat dissipation, durability, and long-term reliability. Compatible with both GU10 LED and halogen lamps (not included), it provides flexible lighting options to suit various project requirements. Its 30° adjustable tilt and 55° cut-off angle allow accurate beam positioning while minimizing glare for a refined architectural lighting effect.

Technical Specifications:

| Parameter               | Specification                                                           |
