

CYLINDRICAL SLIM ADJUSTABLE LIGHT

Drawing CODE: CE-R1-XX

Product CODE: ISH-CE-R1-XX

BRAND:ARCHLUX

Product description:

The Cylindrical Slim Adjustable Light is a high-performance architectural lighting fixture designed for focused and efficient illumination. Built with a combination of aluminum and PC baffle materials, it ensures durability, thermal stability, and controlled light output.

Equipped with a 15W USA CREE LED system, the fixture delivers high-quality lighting with a 24° beam angle and warm 3000K color temperature, making it suitable for modern residential and commercial lighting applications.

Technical Specifications:

Parameter	Specification
Input Voltage	200–240VAC, 50/60Hz
Power Consumption	15W
LED Type	USA CREE
Color Temperature	3000K
Luminous Output	650 lm
CRI	90
Beam Angle	24°
Material	Aluminum + PC baffle
Size	Ø75 × 177.6 mm
Cut-out Size	Ø65 mm
Driver	CSP + KGP drive
