

COVE LED STRIP LIGHT IP67

Drawing CODE: COVEL

Product CODE: ISH-COVEL-IP67-10CM

BRAND:ARCHLUX

Product description:

The Cove LED Strip Light IP67 is a premium flexible linear lighting solution designed for modern architectural cove lighting, ceiling accents, and decorative illumination. Engineered to provide smooth and continuous light output, this 10W/m LED strip delivers consistent brightness with excellent visual comfort for residential, hospitality, commercial, and architectural applications.

Featuring 120 LEDs per meter, it ensures uniform illumination without visible gaps, creating a seamless lighting effect for professional interior designs. The 3000K warm white color temperature adds a comfortable and elegant atmosphere, while the IP67 waterproof protection allows reliable use in indoor and semi-outdoor environments. With a convenient 10 cm cuttable length, it provides flexible installation options for customized lighting layouts.

Technical Specifications:

Parameter	Specification
Product Type	IP67 Cove LED Strip Light
Input Voltage	AC 220–240V
Power Consumption	10W/m
LED Quantity	120 LEDs/m
Color Temperature (CCT)	3000K Warm White
CRI	>90
Cutting Length	10 cm
Protection Rating	IP67 Waterproof
Light Type	Linear Flexible LED Strip
Light Distribution	Uniform Continuous Illumination
Installation Type	Cove / Surface Mounted Installation
Application	Cove Lighting, Ceiling Borders, Hotels, Restaurants, Homes, Architectural & Decorative Lighting
