

# FACADE LIGHTING BEAM - UP TO 3m

Drawing CODE: CTH

Product CODE: ISH-CTH-TY3-3K

BRAND:ARCHLUX

## Product description:

The Facade Lighting Beam – Up to 3m is a premium compact LED spotlight designed for precise architectural and landscape illumination. Engineered for outdoor accent lighting, it delivers focused and controlled light output ideal for highlighting façades, pathways, gardens, columns, and architectural features.

Powered by a high-efficiency USA CREE LED chip with 3 high-performance LEDs, this 3W spotlight provides excellent brightness and reliable performance. Available with multiple beam angle options (5° / 10° / 30°), it allows flexible lighting designs ranging from narrow accent effects to wider architectural illumination. Built with a durable die-cast aluminum body and IP67 waterproof protection, it ensures long-lasting performance in outdoor environments.

## Technical Specifications:

| Parameter                 | Specification                                                           |
|---------------------------|-------------------------------------------------------------------------|
| <b>Product Type</b>       | Mini Architectural LED Spotlight                                        |
| <b>Power Consumption</b>  | 3W                                                                      |
| <b>LED Source</b>         | USA CREE LED Chip                                                       |
| <b>LED Quantity</b>       | 3 High-Performance LEDs                                                 |
| <b>Input Voltage</b>      | AC 220V                                                                 |
| <b>Color Temperature</b>  | 3000K Warm White                                                        |
| <b>Beam Angle Options</b> | 5° / 10° / 30°                                                          |
| <b>Material</b>           | Die-Cast Aluminum                                                       |
| <b>Protection Rating</b>  | IP67 Waterproof                                                         |
| <b>Fixture Size</b>       | Ø70 × H72 mm                                                            |
| <b>Installation Type</b>  | Outdoor Surface / Ground Installation                                   |
| <b>Performance</b>        | High Efficiency, Precise Beam Control, Outdoor Durable                  |
| <b>Application</b>        | Façades, Gardens, Pathways, Landscape Lighting, Outdoor Accent Lighting |
