

FACADE LIGHTING BEAM - UP TO 6m

Drawing CODE: CTH12

Product CODE: ISH-CTH-ZGZ12-3K

BRAND:ARCHLUX

Product description:

The Facade Lighting Beam – Up to 6m is a premium high-power architectural spotlight engineered for precise outdoor illumination in landscape, façade, and architectural lighting applications. Powered by USA CREE LED technology with a 12-piece high-brightness LED array, this compact yet powerful fixture delivers 12W of efficient illumination with a warm 3000K color temperature, creating striking lighting effects for building exteriors and outdoor landscapes.

Available with 5°, 10°, and 30° beam angle options, it provides exceptional flexibility for narrow accent lighting or wider architectural illumination. Constructed from durable die-cast aluminum, the fixture offers excellent heat dissipation and long-term reliability, while its IP67 waterproof and dustproof rating ensures dependable performance in harsh outdoor environments.

Technical Specifications:

Parameter	Specification
Product Type	High-Power Architectural Spotlight
Power Consumption	12W
LED Source	USA CREE LED
LED Quantity	12 High-Brightness LEDs
Input Voltage	AC 220V
Color Temperature (CCT)	3000K Warm White
Beam Angle Options	5° / 10° / 30°
Material	Die-Cast Aluminum
Protection Rating	IP67 Waterproof
Fixture Size	Ø121 × H80 mm
Installation Type	Outdoor Surface Mounted
Performance	High Brightness, Precise Beam Control, Energy Efficient
Application	Landscape Lighting, Façade Illumination, Gardens, Pathways, Building Exteriors, Monuments & Architectural Accent Lighting
