

GYPSUM DOWNLIGHT TOP CLASS

Drawing CODE: ED

Product CODE: ISH-ED8808

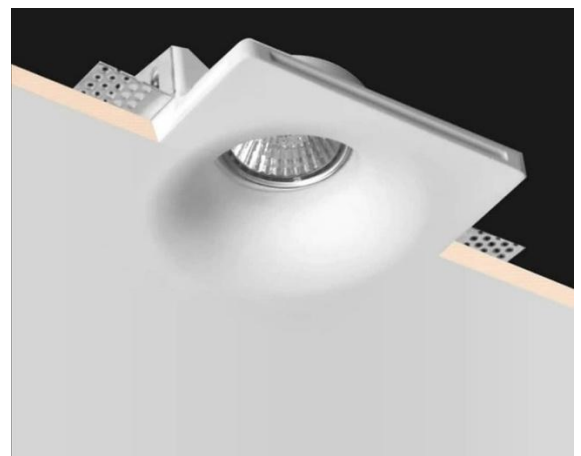

Product description:

The **Gypsum Downlight Top Class** is a premium trimless recessed lighting fixture designed for seamless integration into modern architectural interiors. Manufactured from **white natural plaster**, it creates a clean, invisible frame effect that blends perfectly with gypsum ceilings, providing an elegant and minimalist lighting appearance.

Featuring a **trimless design with an invisible frame**, the fixture delivers a refined architectural finish while allowing easy installation and maintenance. Equipped with a **GU10 ceramic lamp holder**, it provides flexibility for different GU10 LED lamp options, making it ideal for luxury residential, hospitality, retail, and commercial interior applications.

Technical Specifications:

- Bulb type: Halogen/LED
- Material: High density, high strength white nature plaster.
- Colour: Can be painted into any colour to match the ceiling.
- Trim less: Frame invisible
- Cut-out 120*120 mm
- holder: Ceramic GU10
- Voltage: 220-240V
- Certificate: all electric parts with UL/CE/Rohs approval.
- Installation: Recessed, Easy to install and maintain.
