

MODERN MINI WALL LIGHT - 2 DIRECTION

Drawing CODE: GL13106

Product CODE: ISH-GL13106-2Y

BRAND:ARCHLUX

Product description:

The Modern Mini Wall Light – 2 Direction is a premium outdoor LED wall light designed for architectural accent lighting, façade enhancement, and modern exterior illumination. Powered by high-efficiency German OSRAM 3030 SMD LED technology, this compact fixture delivers bright, stable, and energy-efficient illumination with reliable long-term performance.

Featuring 6 LED chips, it provides enhanced light output while maintaining efficient power consumption. The durable die-cast aluminum and glass construction offers excellent heat dissipation and structural durability. With an IP54 protection rating, the fixture provides reliable resistance against dust and water splashes, making it suitable for semi-outdoor applications in residential, commercial, and hospitality environments.

Technical Specifications:

| Parameter          | Specification                                                                                      |
|--------------------|----------------------------------------------------------------------------------------------------|
| Product Type       | Outdoor LED Wall Light                                                                             |
| LED Type           | 3030 SMD LED                                                                                       |
| LED Quantity       | 6 PCS                                                                                              |
| LED Source         | German OSRAM                                                                                       |
| Power Consumption  | 7W                                                                                                 |
| Input Voltage      | 100–240V AC                                                                                        |
| Material           | Die-Cast Aluminum + Glass                                                                          |
| Protection Rating  | IP54                                                                                               |
| Light Distribution | 2-Direction                                                                                        |
| Performance        | High Brightness, Energy Efficient, Stable Output                                                   |
| Design             | Modern Compact Architectural Fixture                                                               |
| Installation Type  | Wall Mounted                                                                                       |
| Application        | Façades, Entrances, Corridors, Balconies, Gardens, Pathways, Villas, Hotels & Commercial Buildings |
