

CEILING MOUNTED ADJUSTABLE SQUARE

Drawing CODE: H-LB

Product CODE: ISH-H-LB403FS-B/W

BRAND:ARCHLUX

Product description:

The Premium Surface Ceiling Mounted LED Downlight is a high-performance architectural lighting fixture designed for modern residential, commercial, retail, and hospitality interiors. Featuring a compact single-head square design with a sleek Phantom Black finish, it provides a clean and contemporary appearance while delivering precise, comfortable illumination for a wide range of indoor applications.

Powered by a premium USA CREE LED chip, the fixture delivers efficient 9W warm white 3000K lighting with a 38° beam angle for balanced accent and general illumination. Equipped with a high-quality isolated driver (PF >0.9), it ensures stable performance, excellent energy efficiency, and long service life. The durable aluminum body provides superior heat dissipation, making it an ideal choice for professional architectural lighting installations.

Technical Specifications:

Parameter	Specification
Product Type	Ceiling Mounted Adjustable Square LED Downlight
LED Source	USA CREE LED Chip
Power Consumption	9W
Input Voltage	AC200–240V
Color Temperature	3000K Warm White
Luminous Efficiency	90 lm/W
Beam Angle	38°
Material	Aluminum
Fixture Size	75 × 75 × 140 mm
Adjustment	Adjustable Head
Installation Type	Ceiling Mounted
Protection Rating	IP20
Application	Residential, Retail, Hospitality, Galleries & Architectural Accent Lighting
