Product description:

The Compact Architectural Spotlight is a premium recessed LED fixture engineered to deliver precise and elegant accent lighting for modern interior spaces. Its compact design and focused beam provide exceptional illumination while enhancing architectural details, decorative features, retail displays, and contemporary residential environments.

Powered by a high-performance USA CREE LED chip, the spotlight produces warm white 3000K illumination with excellent color rendering (CRI ≥90), ensuring accurate color reproduction and superior visual comfort. Constructed from durable aluminum, the spotlight features a white fixture body paired with a replaceable front frame available in either Matt White or Matt Black, allowing seamless integration with different interior design styles while maintaining a clean architectural appearance. It is an ideal solution for residential, retail, and commercial lighting projects.
