

OUTDOOR PHOTOCELL SENSOR

Drawing CODE: LDR-LD

Product CODE: ISH-LDR-LD

BRAND: Link

Product description:

The Outdoor Photocell Sensor is an automatic dusk-to-dawn lighting control device designed for outdoor lighting applications. The sensor automatically switches connected lighting loads ON at dusk and OFF at dawn by detecting ambient light levels, providing reliable operation and energy savings.

Its weather-resistant design makes it suitable for street lighting, garden lights, security lighting, signage, parking areas, and other outdoor lighting systems.

Technical Specifications:

Parameter	Specification
Model Code	ISH-LDR-LD
Product Type	Outdoor Photocell Sensor
Power Supply Voltage	240V AC
Operating Voltage	220–240V AC
Power Frequency	50/60Hz
Rated Current	10A / 16A
Switching Light Level	5–15 Lux
Control Function	Dusk ON / Dawn OFF
Installation	Outdoor Wall / Pole Mounting
Sensor Type	LDR (Light Dependent Resistor)
