

LED NEON LIGHT 24VDC

Drawing CODE: NEON

Product CODE: ISH-LED-NEON

BRAND:ARCHLUX

Product description:

The LED Neon Light 24VDC is a premium LED Neon Flex Strip designed for modern architectural, decorative, signage, and creative lighting applications. Featuring a flexible PVC construction, it can be easily shaped, bent, and customized to create smooth lines, curves, letters, and decorative patterns.

Powered by a high-quality Taiwan LED source, the strip delivers uniform 3000K warm white illumination with an efficient 12–14W/m power consumption. Its 24VDC low-voltage operation provides safe and reliable performance, while the IP68 waterproof rating makes it suitable for both indoor and outdoor applications.

With a lifespan exceeding 60,000 hours and a convenient 0.5m cuttable length, it offers excellent flexibility for professional architectural and creative lighting installations.

Technical Specifications:

Parameter	Specification
Product Type	LED Neon Flex Strip
LED Source	Taiwan LED
Power Consumption	12–14W/m
Input Voltage	24V DC
Color Temperature (CCT)	3000K Warm White
Protection Rating	IP68 Waterproof
Material	Flexible PVC Tubing
Cutting Length	Every 0.5m
Lifespan	>60,000 Hours
Installation Type	Plug & Play
Performance	Uniform Illumination, Flexible Shaping, Energy Efficient
Application	Architectural Lighting, Signage, Interior Decoration, Outdoor Lighting, Commercial Displays & Creative Lighting Projects
