

LINEAR SPOT LIGHT 36W

Drawing CODE: LINEAR

Product CODE: ISH-LINEARSP-36W-3K

BRAND:ARCHLUX

Product description:

The Laser Blade Linear Light is a premium architectural LED luminaire designed to deliver precise linear illumination for modern residential, commercial, hospitality, and retail interiors. Featuring a slim full aluminum body with an elegant matte black finish, it offers a clean minimalist appearance that complements contemporary architectural spaces.

Powered by a high-efficiency Taiwan Epistar LED, the fixture provides 36W of stable, energy-efficient illumination with a 24° focused beam angle, making it ideal for feature lighting, workspaces, corridors, reception areas, and architectural accents. Its versatile design supports both pendant and ceiling-mounted installation, allowing seamless integration into a wide range of lighting concepts. Equipped with a reliable OEPE LED driver and certified electrical components, it ensures consistent performance, safety, and long service life.

Technical Specifications:

Parameter	Specification
Product Type	Laser Blade Linear LED Light
Power Consumption	36W
Input Voltage	220–240V AC
LED Source	Taiwan Epistar LED
Beam Angle	24°
Driver	OEPE LED Driver
Material	Full Aluminum
Body Finish	Matte Black
Fixture Size	120 × 3.3 × 7 cm
Installation Type	Pendant or Ceiling Mounted
Certifications	UL / CE / RoHS Approved Components
Protection Rating	IP20
Application	Homes, Offices, Hotels, Retail Stores, Corridors & Architectural Lighting
