

Mini Motion Sensor

Drawing CODE: MINI-SEN

Product CODE: ISH-MINI-SEN

BRAND: Link

Product description:

The Mini Motion Sensor is a compact sensing device designed for discreet installation in access control, automation, and security applications. Featuring a miniature design with a 16 mm mounting cutout, the sensor provides reliable motion detection and a Normally Open (NO) dry contact output for easy integration with control systems.

Operating on 24 VDC, the sensor offers a sensing distance of 3–5 mm and incorporates a fixed 5-minute time delay, making it suitable for occupancy detection, automatic activation, and monitoring applications.

Features:

Feature	Description
Compact Design	Miniature sensor for concealed and space-saving installations
Reliable Detection	Sensing distance of 3–5 mm
Dry Contact Output	Normally Open (NO) dry contact output
Integrated Delay Timer	Fixed 5-minute time delay
Easy Integration	Compatible with access control and automation systems
Standard Mounting	Designed for a 16 mm cutout installation
Low-Voltage Operation	Operates on 24 VDC power supply

Technical Specifications:

Parameter	Specification
Product Type	Mini Motion Sensor
Operating Voltage	24 VDC
Sensor Type	Micro Sensor
Output Type	Normally Open (NO) Dry Contact
Cutout Size	16 mm
Sensing Distance	3–5 mm
Time Delay	5 Minutes
