

Magnetic Track Driver

Drawing CODE: MTL

Product CODE: ISH-MTL-P

BRAND:ARCHLUX

Product description:

The Magnetic Track Driver is a high-performance power supply designed to deliver stable and efficient power for 48V DC magnetic track lighting systems. Featuring a durable aluminum housing, it provides excellent heat dissipation, reliable operation, and long service life for professional architectural lighting installations.

Available in 100W, 200W, and 300W power ratings, the driver is suitable for different magnetic track lighting loads across residential, commercial, hospitality, retail, office, and architectural projects. Its compact and efficient design ensures consistent power delivery while maintaining the clean aesthetics required for modern lighting systems.

Technical Specifications:

Parameter	Specification
Product Type	Magnetic Track Driver
Output Voltage	48V DC
Available Power Ratings	100W / 200W / 300W
Material	Aluminum Housing
Cooling System	Aluminum Heat Dissipation Housing
Compatible System	48V DC Magnetic Track Lighting System
Installation Type	Magnetic Track Power Supply
Power Output Options	Multiple Wattage Selection According to Lighting Load
Design Style	Modern Architectural Magnetic Lighting
Application	Homes, Offices, Hotels, Retail Stores, Restaurants, Showrooms, Galleries & Commercial Buildings

Available Models:

Model Variant	Power Output
Magnetic Track Driver 100W	100W
Magnetic Track Driver 200W	200W
Magnetic Track Driver 300W	300W
