

Magnetic Spot Light

Drawing CODE: MSPT

Product CODE: ISH-MTL01-T

BRAND:ARCHLUX

Product description:

The Magnetic Spot Light is a premium architectural LED fixture designed for 48V DC magnetic track lighting systems, delivering precise and energy-efficient illumination for modern residential, commercial, retail, hospitality, and gallery environments. Equipped with a high-performance Osram LED chip, it produces warm white 3000K light with CRI 90, ensuring excellent color accuracy and superior visual comfort.

Available in 5W, 8W, 12W, and 20W power options, and offering 24° and 36° beam angle variants, the fixture provides flexible lighting solutions for both focused accent lighting and wider illumination. Constructed from premium aluminum and PMMA with a sleek Black finish, it combines outstanding durability, efficient heat dissipation, and a refined architectural appearance.

Technical Specifications:

Parameter	Specification
Product Type	Magnetic LED Spot Light
Available Power	5W / 8W / 12W / 20W
Input Voltage	48V DC
LED Source	Osram LED Chip
Color Temperature	3000K Warm White
Color Rendering Index (CRI)	90
Beam Angle Options	24° / 36°
Material	Aluminum + PMMA
Body Finish	Black
Installation Type	Magnetic Track Mounted
Protection Rating	IP20
Application	Homes, Offices, Retail Stores, Hotels, Restaurants, Showrooms, Galleries & Commercial Buildings
