

INTERNAL MODERN MAGNETIC ALUMINUM TRACK

Drawing CODE: MTR01

Product CODE: ISH-MTR01-20-AZ

BRAND:
 ARCHLUX

Product description:

The Internal Modern Magnetic Aluminum Track is a premium smart magnetic track lighting system designed for flexible architectural lighting layouts in modern residential, commercial, and retail environments. Featuring a 2.6 cm profile and durable powder-coated black aluminium construction, it combines a refined appearance with long-lasting performance. The integrated 48V low-voltage circuit and dual mechanical and magnetic locking system provide safe, secure, and flexible installation, while multiple joiners enable corners, branches, and multi-directional track configurations.

Technical Specifications:

Feature	Description
Product Type	Smart Magnetic Track Lighting System
Material	Powder-coated black aluminium
Power System	Integrated 48V low-voltage circuit
Connection Type	Magnetic force connection system
End Components	Supplied with Live End and Dead End fittings
Expandability	Compatible with multiple joiners for extended layouts
Configuration Flexibility	Supports corners, branches, and multi-directional track designs
Application	Suitable for retail spaces, art galleries, offices, and luxury residential interiors
Design & Performance	Designed for flexible, safe, and premium architectural lighting integration
Usage	Ideal for modular architectural lighting layouts requiring flexible and adaptable illumination
