

DOUBLE ACTION MODERN PENDANT LIGHT

Drawing CODE: PEND

Product CODE: ISH-PEND-DA

BRAND:ARCHLUX

Product description:

The Double Action Modern Pendant Light is a premium dual-function architectural pendant luminaire designed to provide both focused accent lighting and wide ambient illumination in a single elegant fixture. Featuring a slim aluminum body with a modern minimalist design, it combines a 20W spotlight and a 36W flood light, making it ideal for residential, hospitality, retail, office, and commercial interiors.

The integrated spotlight delivers 3000K warm white illumination through a 38° beam angle for precise accent lighting, while the flood light provides 4000K neutral white illumination with a 90° beam angle for comfortable general lighting. The combination of two independently functioning light sources allows designers to create layered lighting effects that enhance both aesthetics and functionality.
