

READING LIGHT

Drawing CODE: QL

Product CODE: ISH-QL-WB-907

BRAND:ARCHLUX

Product description:

The Reading Light is a premium adjustable LED wall light designed for bedside, hospitality, residential, and commercial reading applications. Featuring a compact architectural design with a 360° adjustable head, it provides precise directional lighting for comfortable reading while maintaining a clean, modern appearance. Powered by a high-performance USA CREE LED chip, the fixture delivers 3W of energy-efficient illumination with 300 lumens of output, CRI 95 for exceptional color accuracy, and a selectable 15°–24° beam angle for focused lighting. Constructed from durable aluminum, it offers excellent heat dissipation and long-term reliability. Available in Black, White, and Black & Gold finishes, it complements a wide range of contemporary interior designs.

Technical Specifications:

Parameter	Specification
Product Type	Adjustable LED Reading Light
Power Consumption	3W
Input Voltage	AC 85–265V
LED Source	USA CREE LED Chip
Luminous Flux	300 lm
Color Rendering Index (CRI)	95
Beam Angle	15°–24°
Adjustment	360° Rotatable
Material	Aluminum
Available Finishes	Black, White, Black & Gold
Protection Rating	IP40
Installation Type	Wall Mounted
Application	Bedrooms, Hotels, Reading Areas, Bedside Lighting, Living Rooms & Hospitality Projects
